

St. Patrick of Heatherdowns Pre-School Program

**3 year old, M—Th, 12:30—3:00
PM**

The philosophy of our pre-school program is that children learn through play, interaction with other children and creativity.

Children must be happy to love school! Our classroom is designed to stimulate learning through the development of creativity and curiosity.

The 3-year old program utilizes free play, learning centers, stories, and songs. Mrs. Eickholt interacts with the children individually to provide them with individual direction and guidance needed to develop their skills.

Registration papers must be accompanied by: child's birth certificate, baptismal certificate, social security card and \$75 registration fee.
